

Filter Media

Aqueon offers an assortment of media that can be used with freshwater and saltwater environments, designed to improve the overall appearance and water quality for fish and other livestock. This media can be used with different types of filters: internal, canister, traditional hang-on-the-back and wet/dry sump systems.

Activated Carbon

- Chemical filtration
- Remove pollutants and organic waste from water
- Improves overall water clarity

Bio-Ceramic Rings

- Biological filtration
- Porous surface is ideal for beneficial bacteria growth

Bio-Balls

- Biological filtration
- Geometric surface area is ideal for beneficial bacteria growth to foster a healthy aquatic environment

Coarse Foam Pad*

- Biological and mechanical filtration
- Provides large surface for beneficial bacteria growth

Water Polishing Pad*

- Mechanical filtration
- Traps micro particles and debris from water

*Custom size for use with Aqueon® QuietFlow® Canister Filters only.

Aqueon® Filter Media
