

Water Treatment Filter Pads

10" x 18"

There are 3 varieties to help address different water challenges:

Ammonia Reducing: Focuses on removing harmful or toxic ammonia from water.

Carbon: Removes pollutants that discolor water and cause odor.

Phosphate Remover: Reduces phosphate levels that contribute to algae growth and traps excess waste, food and other organic debris from water.

Each water treatment pad measures 10"W x 18"L and can be cut down to fit into most filter types:

- Traditional Hang on the Back Filters
- Canister Filters
- Internal Filters
- Wet/Dry Filters

All are compatible with fresh and saltwater aquariums.
