

Pro Adjustable Aquarium Heaters

Aqueon® Pro Aquarium Heaters are designed to deliver consistent heat and built to last. Each unit features adjustable heat setting and is equipped with an electronic thermostat that evenly distributes heat throughout the ultra-durable thermal plastic housing. The thermostat has an advanced gravity shut off feature; unit turns off when top of heater tilts below bottom of heater.

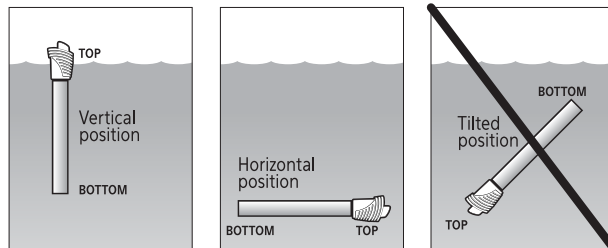

Other Features:

- Fully submersible; includes suction cups for easy installation and placement
- LED illuminates when actively heating
- For freshwater and saltwater aquariums

Available Heater Size	Recommended for Aquarium Size
50W	up to 20G
100W	up to 40G
150W	up to 55G
200W	up to 75G
300W	up to 100G

Safety Feature

This heater is equipped with advance gravity technology. If the heater top tilts lower than the heater bottom, the unit will automatically shut off.
