

OptiBright® LED Lights

At only 5/8", the OptiBright® LED Lights are the slimmest fixtures in the Aqueon® lineup. The low profile design combined with bright LEDs help keep the focus on the vibrant aquatic environment.

Featuring:

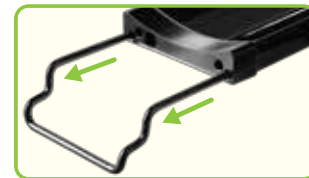

- White, Red and Blue LEDs
- Waterproof touch controls that can be used independently or simultaneously for day and nighttime viewing
 - White/Red LEDs use white power button
 - Blue Moon Glow LEDs use blue power button
- Adjustable legs on each end of the fixture to accommodate multiple aquarium lengths
- Ideal lighting for freshwater or saltwater fish and low-medium light level plants
- Contents: 1 - LED fixture, 1 transformer, setup instructions

Moon glow accents

Individual touch controls

Adjustable legs
