

16 LED WIDESCREEN Aquarium Kit

The LED Widescreen aquarium is taller, wider and sleeker than a traditional aquarium, providing a 95% larger viewing area for the ultimate viewing experience. The low profile hood contains built-in cool white LED modules to accentuate the natural colors of fish and plants.

Kit Includes:

- Size 16 glass aquarium
- Low profile full hood with LED lighting
- QuietFlow® Power Filtration with medium cartridge
- Submersible Preset Heater set to 78°F
- Water Conditioner sample
- Premium Fish Food sample
- Thermometer and fish net
- Set-up and care guide

FORGE aquarium stands 30" x 8"

Ready to assemble in 7 quick and easy steps! The top shelf holds the 16 Widescreen aquarium, while the lower shelf can be used for a second aquarium up to 15 gallons.

Features Include:

- Reversible wood panels: black or brown
- Durable steel construction
- Rust-resistant powder-coated finish
- Front panel flips up for easy access to aquarium on lower shelf
